

## **Website development for Eureduka**

### Agreement

Following agreement should be signed by each student before they get passwords to the Oscar website and set of tools.

Between :

Eureduka asbl, chaussée de Wavre 1259, B-1160 Brussels, represented by Laurent Fourny,  
[laurent.fourny@oscar.education](mailto:laurent.fourny@oscar.education)

Hereafter referred to as : OSCAR

And :

Prof. Kim Mens, Université Catholique de Louvain, Computing Science Engineering Pole,  
[kim.mens@uclouvain.be](mailto:kim.mens@uclouvain.be)

Hereafter referred to as : the Teacher

And :

Hereafter referred to as : the Student

It is agreed that :

1. The student is operating in the framework of the LSINF2255 software development project at UCL, part of the academic curriculum of computer scientists and engineers in computer science at the Louvain School of Engineering at UCL. The evaluation and the academic guidance is under the responsibility of the Teacher and his team.
2. The specifications of the Software Development Project are contained in the document *LINGI2255 case specification* and its appendices. The parties try to create a work of professional quality that is as useful as possible for the teachers/students/pupils to whom the website is intended.
3. Eureduka, a non profit organization, is free to integrate in its tool the code developed by the Student, without financial compensation. By accepting this agreement the Student assigns the intellectual property to Eureduka so that it can be put to the benefit of all teachers/students/pupils. Eureduka can make no claims regarding the quality of the code delivered by the Student. The supervision and evaluation of the quality of the work is left to the Teacher.
4. The final deployment of a new version or integration of a new extension within the production environment will be done under the responsibility of Eureduka, although the integration within the testing environment is part of the project.
5. The Student will receive from Eureduka complete access to the code of its existing software and to the content of its data bases. The Student commits him/herself to use this information only for the work referred to in this agreement, and will no longer have any claims or be allowed to make use of any of this information after this project is finished (except under a new agreement made between the Student and Eureduka). It is prohibited at any moment to transfer this information to third parties.
